21 October 1975

MEMORANDUM FOR: Director of Training

THROUGH : Chief, Intelligence Institute

SUBJECT: Course Report - Midcareer Course No. 48,

7 September - 10 October 1975

1. Midcareer Course No. 48, in the opinion of the class and staff, was considered to be a successful running of the course. The participants came together as a group very early in the two weeks at the

25X1A

and this attitude remained throughout the five weeks. This situation promoted an inquisitiveness and questioning of each other but they were not as probing of the speakers as in previous courses. In fact, this lack of questioning of the speakers led the staff to wonder whether the class as a whole was lacking in intellectual curiosity about things which were not directly related to their jobs.

2. Phases I and II were rated highest by the class followed by Phase III and the field trip. The high marks for the phases dealing with the Agency and the Intelligence Community probably reflect the interest and concern about the inquiries into the problems of intelligence currently being conducted by Congress. The low marks for the field trip probably reflect the difficulty in relating the facilities visited to intelligence or the class members' jobs. The class was not able to meet with the Director due to the many demands on his time and the DDCI had to cancel his scheduled session at the close of the course. The class did meet with three of the Deputy Directors (Messrs. Blake, Duckett and Nelson) and the ADDI and they all received high marks for their efforts. The class felt that the course met its stated objectives but they were less clear about how it met their own personal objectives.

Statistics

3. The nominee from the DCI's area cancelled out of the course at the last minute so that there were only 29 members in Midcareer Course No. 48. They represented all four Directorates: nine were from Operations, seven from Administration, seven from Intelligence and six from the Directorate of Science and Technology. The average age of the class was 36.7 years ranging between 30 and 45. The average grade of the class was 13 with one GS-11, eight GS-12's, twelve GS-13's, and nine GS-14's. The average length of service was 11.6 years with a range between five and nineteen years.

Major Changes

4. Major changes in this running consisted of scheduling all components of the DDA as a block rather than scattered throughout Phase I and scheduling sessions on the USSR and China targets in Phase III following presentations by academicians. Student reaction to the first change was non-existant but strong with regard to the second change. All felt that a discussion of the USSR and China targets would be more relevant in the first phase at along with the other DDO speakers. The students had a difficult time making the transition from a consideration of the two areas by academicians and then by Agency speakers.

25X1A

stitutes out of 42 scheduled speakers. Four scheduled sessions in Phase I were cancelled due to press of business or weather but the staff was able to reschedule two sessions for later times in the course. The "Obstacles Exercise" served to get the class participants interacting with each other and got the formal presentations off to a good start on the first evening. There were several speakers in this running who were new to the course or had

5. Phase I proceeded smoothly despite nine sub-

Adams case and Adams' charges leveled at the Intelligence Speakers who received the highest marks during Community. 25X1A Phase I included Bill Parmenter, , Chuck 25X1A Omego Ware and Zeke Zellmer. Phase II proceeded as scheduled with no changes. General Wilson, D/DCI/IC, made the initial presentation on the Community and, as usual, was extremely well received. General Daniel Graham, Director, DIA, spoke to the course for the first time in that capacity and his appearance was most appreciated by the class. His presentation received mixed reactions, however, for many felt that he was not forthcoming or candid in his remarks. Two new speakers were from the IC Staff and Robert Baraz from 25X1A State/INR. Class reaction to the latter was not good but the staff feels that he covered his subject well and deserves 25X1A another hearing. The least effective speaker was Karl from NSA who used too many slides and concentrated 25X1A on the history of his organization. General Wilson and FBI, were rated the most effective. Sessions with Mr. Blake and Mr. Duckett were held in this phase and they were both extremely well received for their candid and forthright discussions on Agency problems. Phase III consisted of 18 speakers and the field 25X1A trip. Five of the eighteen speakers were new and included OSR; Joseph Gustaferro, Office of Energy Programs; Carl Hemmer, AID; NIO/Western Europe; and Herbert Spielman, State/Office of Environmental Affairs. 25X1A The class gave very low ratings to Gustaferro and Spielman but the staff feels that despite Spielman's deliberate and slow delivery he should be invited back because his substantive presentation was well done. Carl Hemmer's pre-25X1A sentation on population was very effective and he should be invited back again. Andrew Pierre made a very poor appearance with a disjointed presentation and probably The named session should not be invited back 25X1A 25X1A

Approved For Release 2000/06/01 : CIA-RDP80-00536A000449080001-3

MANAGE T

8. The field trip to Columbus, Ohio, where the class visited Battelle Memorial Institute and Rockwell International went fairly well. The majority of the class felt that the trip met its objectives although there were some that had trouble relating the visits to problems of general intelligence interest. Both facilities did very well in organizing the tours for their respective days and the speakers did well as a whole. The Rockwell people were obviously well prepared and the plant tour was well done although the lack of activity on the production lines was perhaps a major disappointment to the class. The tour at Battelle received mixed reactions.

25X1A

25X1A 25X1A

Problems |

25X1A

25X1A

9. The last minute cancellation of the nominee from the DCI's area prevented the staff from getting an alternate from another Directorate. In addition, a few of the participants for the field trip. This appears to be a recurring problem and there does not seem to be any good solution to

Summary of Class Reaction

- 10. The overall student evaluations, without exception, were favorable. Exposure to class members from other Directorates was invaluable and the informal student presentations were to the majority a key part of the course. Most were appreciative of the chance to discuss major problems with the speakers, particularly those in the Agency and the Intelligence Community.
- 11. On a scale of 1 to 7 Phase I evaluations ranged from 4 to 7 with an average of 5.0. Phase II evaluations ranged from 4 to 6 with an average of 5.0 and the field trip evaluations ranged from 2 to 7 with an average of 4.3. The Phase III evaluations ranged from 3 to 7 averaging out at 4.6. The overall course evaluation was 5.2.

MIDCAREER COURSE

The Midcareer Course was started in 1963 to provide an opportunity for promising, middle-level officers to broaden their professional horizons. The Course has become well-known throughout the Agency as an important aspect of career development as well as a forum for the exchange of views between senior managers from many components of CIA and course participants.

COURSE OBJECTIVES

Midcareer Course members are expected to:

- Gain a fairly detailed understanding of the Agency, its components and issues of current concern to Agency management.
- 2. Achieve a broad grasp of the other elements of the Intelligence Community and the policy making process.
- 3. Obtain insight into selected national and international developments that bear on the U.S. foreign intelligence effort.

PHASES

The Midcareer Course is divided into three phases which in succession emphasize each of the three objectives. You should, however, keep in mind that the range of subject matter covered in each of the phases contributes to the attainment of all three objectives.

PHASE I -- THE AGENCY

The Course opens with an examination of the organization, mission, role, and functions of the Central Intelligence Agency. Most of you have spent your careers in organization, Directorate, some in one office or division, and even a few in one branch; therefore, our objective in this Fhace is to open up the Agency to your critical inspection, to broaden your perspectives on the operations of other offices and Directorates, and to offer you new insights into how your job relates to the larger picture of the intelligence process.

0845-0900

Course Administration

Block I--Mutual Perceptions: The Agency and Us

In the first Block of this Phase you will consider how you, as Midcareerists, see yourselves as employees and how you view the Agency. You will have an opportunity to discuss mutual problems and to suggest solutions. A senior officer will discuss his functions as a member of the management echelon and how he accomplishes his managerial responsibilities. Finally, those officers concerned with the Agency's legal, legislative and media relationships will discuss their perceptions of the problems that face the Agency today.

0910-1200 <u>Team Exercise: Midcareerist Obstacles</u>

This team exercise is designed to bring our collective thoughts, as a class, to bear on problems that we have individually perceived at one time or another. We want to identify and clarify obstacles that introde upon individual career development or on the realization of Agency missions. We will then seek to formulate or suggest ways of overcoming them. The exercise should surface and bring into sous shared individual concerns and concerns about the Agency that we may explore throughout the entire five weeks.

Individual Presentation

Block II -- Collection and Processing

Intelligence collection rests at the base of the intelligence process where the most money and manpower is expended. We begin with the area of technical collection, looking at the technical collection systems of today and those we can expect tomorrow. We will then look at the area of human collection for which the Agency has a unique responsibility. We will see how technical and human collection interact and complement each other and relate the impact of these 25% 1% as intelligence officers.

Financial Operations in the Agency

Executive Officer, Office of Finance

Financial operations within the Agency are complex and require careful control. Like many other offices in the Agency, our speaker's office has had to reorganize itself to do more with less. He will describe his office's objectives and discuss new simplifying and streamlining techniques and the increasing use of computers to perform routine tasks.

Logistical Support of Agency Activities

Deputy Director of Logistics

Logistics has changed its emphasis greatly since the winding down of activity in Southeast Asia and the present disinclination of the Administration to engage in any more large scale paramilitary ventures. These changes in emphasis and their effects will be described for us as they have become part of the "new look" in the logistics field.

PHASE II--THE INTELLIGENCE COMMUNITY

Now that you have an appreciation for the issues and problems which face CIA today and an understanding of the organization of the Agency, we turn to the Intelligence Community. Speakers representing most of the other members of the Community will provide us with insights into the problems they face in their own agencies and with respect to each other.

0830-0900	Discussion	Class and Staff
0915-0945	Individual Presentation	
1000-1130	Managing the Intelligence Community	Lieutenant General Samuel V. Wilson Deputy to the DCI for the Intelligence Community

The Director of Central Intelligence was charged by the President in November 1971 with exerting more influence throughout the Intelligence Community. This charge was reiterated by President Ford in October 1974. To assist in carrying out this charge, the Director created the Intelligence Community Staff. Our speaker will outline the scope of this responsibility, some of the major problems, and his prognosis for success.

25X1A

Lunch

1300-1330 Phase I Evaluation and Course Administration

1330-1430 Resources for the Intelligence Community

Deputy Chief, Management, Planning Resources and Review Division, IC Staff

The Intelligence Community is a vast, sprawling conglomerate of different agencies, each with a slightly different perspective and each frequently holding differing views on any given subject. Managing and coordinating the resources necessary to make this entire structure work is an extremely complex task. Our speaker will discuss these resources, how they are managed, the role of the DCI in resource management, and the relationship of this area to the current investigations in Congress.

TUESDAY, 30 September 1975 (Room 916, Chamber of Commerce Building)

PHASE III--WORLD AFFAIRS

The international environment within which the Agency operates has undergone some important changes in recent years. National security as a national objective has required some redefinition; whereas the Soviet threat remains paramount, new powers and threats are emerging. National welfare in a world of scarce resources and keen economic competition is demanding its share of attention among US international objectives. It is the purpose of Phase III to bring you up-to-date on both the continuing and new national concerns as affected by world developments, and to suggest the impact of such developments upon the work of the Agency.

0845-0945 Individual Presentations

1000-1200 U.S. Foreign Policy and the United Nations

Since entering government service in 1969, Henry Kissinger has dominated the making of both U.S. foreign policy and U.S. policy in the United Nations. Our speaker will discuss the raison d'etre of the Kissinger foreign policy, based partly on first hand, personal, experience and how this policy relates to the U.N. He will discuss the strengths and weaknesses of the Kissinger approach and make some projections as to what the future may hold.

Lunch

1330-1500

U.S. Strategy and European Security

Andrew J. Pierre Council on Foreign Council on Foreign Relations

A re-examination of US military commitments and relationships in Europe has been prompted by both domestic and external factors, including Congress and the budget, and the impact of detente. The immediate importance is reflected in our participation in the current Mutual and Balanced Force Reduction (MBFR) talks in Vienna. The speaker will consider these matters in discussing the changing strategies and policies of the US aimed at safeguarding the security of Western Europe. He will include an assessment of the role of conventional forces and the status of the NATO alliance.

The US-Soviet Strategic Balance Chief, Strategic Evaluation Center, OSR 25X1A

Understanding Soviet defense policy is a major goal of US intelligence gathering efforts. The Soviet view of the relationship between the strategic forces of the US and the Soviet Union is an important input into the determination of Soviet defense policy. The composition and complexity of opposing nuclear offensive and defensive arsenals make it difficult, however, to measure the strategic balance. Our speaker will describe the US-Soviet strategic balance in this period of the Strategic Arms Limitation talks.

0900-1130 The Middle East in Perspective

Parker T. Hart
Special Representative
for the Middle East
and North Africa,
bechtel Corporation

The Middle East continues to be a problem that could erupt at any moment into a serious conflagration. Although there are many ways of viewing this perpetual crisis area, two of the more significant perspectives are through the eyes of our two speakers—one a former ambassador and the other a university professor specializing in the Mideast. They will cover some of the history of the area, the current situation, and the outlook.

Lunch

1330-1400 Film: "Energy: Critical Choices Ahead"

The scope and impact of the current energy crisis is described in this film recently produced by the Department of Commerce.

1415-1545 Energy: Challenge of the 70's Joseph Gustaferro Office of Energy Programs

As the most technically advanced nation, the US consumes the most energy. We now must compete in a world-wide market where the number of competitors is growing while ready supplies are decreasing. This presentation will focus on the impact of dwindling energy supplies on the traditional patterns of international politics, regional groupings and alliances. The speaker will illustrate how traditional US policy objectives can come into conflict with the necessity for maintaining supplies of energy.

0900-1030 Crisis in Southern Europe

National Intelligence Officer for Western Europe

For the past 30 years, NATO and the countries of Western Europe have formed the bulwark of defense against possible Soviet aggression. Today, upheaval and dissension in Southern Europe threaten large portions of the fabric of European defense and unity. Our speaker will discuss the problem areas and present some thoughts on the direction events may turn in the future.

1045-1200 International Politics and Environmental Problems

Herbert Spielman Office of Environmental Affairs, Department of State

The deterioration of the fragile ecological balance is a problem which confronts all mankind and yet is susceptible to solution only by nations acting in concert. Emphasizing the politics of environment, our speaker will contrast US perceptions, objectives and aims with those of other nations. He will also share his views on the role intelligence may come to play in supporting the policy maker in this important area.

Lunch
